Using the same heavy duty poles and hardware we incorporate into our netting systems, our Batter's Eye is engineered to meet wind ratings up to 105 mph.

One thing that sets our system apart is the AXC (All Extreme Conditions) Screen that serves as the solid backdrop. AXC is designed for up to 50% less wind load. This reduces stress on the system and makes for virtually a maintenance free product. It is also backed by an industry best 7 year warranty!

Our standard systems come in 20' and 30' heights. Custom sizing available to fit any need.
